

IRONWAVE520

PREMIUM ALUMINIUM RIGID INFLATABLE BOAT

Built for fishing, family weekends, tubing, skiing and confident performance on South African waters.

Built for South African boaters who want one boat that can do it all – from fishing trips and coastal adventures to tubing, dam cruising and family weekends on the water.

The IronWave520 combines lightweight marine-grade aluminium strength, premium ORCA Hypalon tubes and practical real-world functionality into one versatile performance platform.
